#### **OLD BUSINESS:**

1. The Piper 180 remains at Duke's for repairs. They are waiting for all the parts to arrive.
2. The Skyhawk is also being repaired
3. The Ercoupe is repaired and back in service.

#### **NEW BUSINESS:**

1. We continue to get a steady stream of new members. There was one member who rejoined last week.
2. Treasury: We are nominally "solvent" and finally have had some weather that allowed planes to fly and generate a little income.
3. Scholarship: We have two applicants so far. The deadline for applications was moved to the end of April because notices for the scholarship with the original deadline arrived too late at some of the schools to get on their lists.

Meeting adjourned at 6:40 PM. Moved by Dunn. Seconded by Beeghly
